

Electronic Circuits Laboratory Project

Year 2007/2008

Rules and Grades:

1. Groups of 4 students are formed.
2. In very limited situations larger or smaller groups may be allowed.
3. Each group should submit a working circuit pertaining to the course Electronic Circuits. This is worth 10 points. As a matter of fact the grade is either 10 for a working circuit or zero if the circuit does not work at the oral exam time. These 10 points are given to each and every student in the group.
4. A report documenting the objective of the project alongside with simulation results, using EWB or PSPICE should be submitted and is worth 5 Points given to every student in the group.
5. An individual Oral test concludes the exam and is worth 5 points which will differ from a student to another.
6. A dead line will be announced, probably two weeks before the final second-term Exam.
